Come network and socialize with
CME students and faculty and
learn tips from career center
counselor on strategies for job/
internship search!

Abstract: Career Development at Any Stage is a presentation that speaks not only to the SJSU Career Center resources and key dates for the Spring semester, but provides guidance on how to find the right fit both now and throughout your career. In this session you will learn about our newest tool - Labor Market Insights which provides information from technical skills to top employers, growth potential and salary range for different industries and pathways.

Bio: Kelly Masegian is the SJSU STEM Undergraduate Career Counselor, Career Liaison to College of Engineering and College of Science, and former Internship Coordinator with the Foothill/DeAnza Internship Program at NASA Ames. She received her MS in Counseling Psychology with an emphasis in Career Counseling from Our Lady of the Lake University in San Antonio, TX. She also received a Career Development Facilitator certification from the National Career Development Association as a supplement to her degree. She is passionate about helping students with career development and is a proponent of lifelong learning.
