

Debbie Andres

Sustainability Program Lead

Debbie Andres is the Sustainability Program Lead for San Jose State University, serving in the position since 2013. She graduated from SJSU with a degree in Chemical Engineering and Environmental, Health and Safety Engineering. She previously worked for construction, technology and manufacturing companies in the Bay Area while discovering her passion for sustainability. Throughout her career, she has worked on energy and water saving programs, waste diversion projects, social media marketing, and LEED certification of new and existing buildings. She sits on the SJSU Sustainability Board as chair.
