SILICON VALLEY DIGITAL FORENSICS LABORATORY

UNVEILING DIGITAL INSIGHTS

At the forefront of digital forensic science, our laboratory is dedicated to advancing the field through current and future workforce preparation, comprehensive mobile forensics services, and cutting-edge research.

In a rapidly evolving digital landscape, SVDFL seizes the opportunity to revolutionize the digital forensics education sector, offering a cutting-edge and inclusive approach that not only addresses the growing demand for qualified professionals but also propels the industry forward through hands-on learning, collaborative partnerships with criminal justice agencies, and a commitment to diversity and inclusivity.

IMPROVING CYBER LITERACY IN THE COMMUNITY

We enhance the current workforce through professional development courses and providing evidence processing services.

We enhance the future workforce through an undergraduate degree in digital forensics and internship opportunities to engage in hands-on training and practical experience processing digital evidence.

We enhance cyber literacy through community events and the dissemination of educational materials aimed at K-12, community colleges, and university institutions.

BENEFITS OF THE LAB

Mobile Forensics Analysis Unit

Processing of iOS and Android mobile devices, by trained and vetted technicians, in a secure facility.

Quick Service Times

Employment of a diverse and inclusive team of qualified technicians that can provide efficient and reliable inter-day mobile device processing locally.

Practical Learning Opportunities

Hands-on training and experience for current SJSU students on digital forensics practices and procedures.

SVDF LAB INTERNSHIP PROGRAM

Gain practical experience and soft skills working with our staff and industry professionals to develop the skills necessary to be successful in the rapidly evolving digital forensics or related fields. Uncover and investigate digital evidence found on mobile device from crimes, cybersecurity incidents, and unauthorized activities.

If you are a current undergraduate or graduate student at SJSU or CSU East Bay, the SVDFL provides year-long (two-semesters) internships which satisfy degree requirements. Students work alongside faculty and industry professionals as a technical or research intern. Don't miss out on this chance to kickstart your journey in the world of digital forensics.

Contact us to learn more about our services and how we can help you achieve your goals.

Student Opportunities

- Technical Internship
- Research Internship
- Volunteer Opportunities
- Employment Opportunities
