

The background of the slide is a photograph of a white, multi-story building with a prominent tower on the left side. The tower has a small arched window at the top and a balcony with a white railing. The building has several windows with decorative elements. To the right of the building is a large, tall, green tree. The sky is clear and blue. A blue semi-transparent banner is overlaid on the middle of the image, containing white text.

The Curriculum

Curriculum Core

Participation in meaningful occupation to promote health, well-being, and social inclusion across the lifespan

Mission

The Occupational Therapy Department at San Jose State University is dedicated to preparing culturally diverse occupational therapy leaders who promote health and participation in life for individuals, organizations, and populations through engagement in occupation.

Curriculum Clusters

- ❑ Occupation-The Core of the Profession
- ❑ Foundations for Occupational Therapy Practice
- ❑ Professional Development
- ❑ Practice in the Community
- ❑ Research and Knowledge Development
- ❑ Practice of Occupational Therapy.

Curriculum Design

Classes are small in order to foster an active learning environment that will encourage students to develop strong clinical reasoning and creative problem solving capabilities. Students refine skills in selecting, evaluating, and applying information in order to engage in evidence-based practice. Throughout the program, opportunities to interact with therapists and clients in clinical and community settings enable students to apply theoretical knowledge to practice.
