Program Information

Welcome to this General Education course.

SJSU's General Education Program establishes a strong foundation of versatile skills, fosters curiosity about the world, promotes ethical judgment, and prepares students to engage and contribute responsibly and cooperatively in a multicultural, information-rich society. General education classes integrate areas of study and encourage progressively more complex and creative analysis, expression, and problem solving.

The General Education Program has three goals:

Goal 1: To develop students' core competencies for academic, personal, creative, and professional pursuits.

Goal 2: To enact the university's commitment to diversity, inclusion, and justice by ensuring that students have the knowledge and skills to serve and contribute to the well-being of local and global communities and the environment.

Goal 3: To offer students integrated, multidisciplinary, and innovative study in which they pose challenging questions, address complex issues, and develop cooperative and creative responses.

More information about the General Education Program Learning Outcomes (PLOs) can be found on the [GE website \(https://sjsu.edu/general-education/ge-requirements/overview/learning-outcomes.php\)](https://sjsu.edu/general-education/ge-requirements/overview/learning-outcomes.php).

Course Learning Outcomes (CLOs)

GE Area D: Social Sciences

Area D courses increase students' understanding of human behavior and social interaction in the context of value systems, economic structures, political institutions, social groups, and natural environments. Students develop an understanding of problems and issues from different disciplinary perspectives and examine issues in their contemporary as well as historical settings and in a variety of cultural contexts.

The CSU requires students to complete General Education courses in the Social Sciences in at least two different disciplines. Students may meet this requirement by either 1) taking two lower-division Area D courses in different disciplines, or 2) taking two lower-division Area D courses in the same discipline and an Area S upper-division GE course in a different discipline.

GE Area D Learning Outcomes

Upon successful completion of an Area D course, students should be able to:

1. Demonstrate understanding of the ways in which social institutions, culture, and environment shape and are shaped by the behavior of individuals, both past and present;
2. Compare and contrast the dynamics of two or more social groups or social systems in a variety of historical and/or cultural contexts;
3. Place contemporary social developments in cultural, environmental, geographical, and/or historical contexts;
4. Draw on social/behavioral science information from various perspectives to formulate applications appropriate to historical and/or contemporary social issues.

Writing Practice: Students will write a minimum of 1500 words in a language and style appropriate to the discipline.

[Introduction to Sociology 3E](#) The text is free online but can also be purchased for about \$30.

Other readings are made available on Canvas

Course Requirements and Assignments

Video Introduction (10 points)

This is a short video where you introduce yourself to me. You will be able to use the Canvas functions to complete this assignment.

In-Class Exercises (2 points each, 20 points total)

Regularly during class we will have in-class exercises aimed at reinforcing lecture material. These exercises can only be completed in class and they cannot be made up. There will be at least 15 such exercises of which the 10 highest will be used toward your final grade.

Lecture Reflections (5 points each, 30 points total)

After every lecture you will be required to submit a short reflection. This assignment is meant to help you summarize some of the main points from each lecture and to reflect on how the concepts covered may have influenced your life. While there are 10 opportunities to complete this assignment only the 6 highest scores will be used to calculate your final grade.

Census Exercise (10 points)

In this assignment you will learn how to use the Census website to access local level data.

Sociological Autobiography (20 points)

In this assignment you will consider your unique positionality (e.g., your unique combination of race, class, gender, sexuality, ability status, generation status, etc.) to tell a story about your life and how it is related to the concepts we have learned about during the semester. For example you may want to discuss how your background influenced your education or work experiences. Or how the system of inequality has played out for you? Did you benefit in some respects? Did you receive any penalties?

Exams (30 points each, 90 points total)

Three exams are scheduled for this class. Exams will consist of multiple choice and short answer questions. Note that while exam three is not comprehensive per se, some material from lecture 1 and 2 will also be covered on this exam.
